Tapes and Foams for EV Battery Application

Here at Global Self-Adhesive Products Limited, we are a leading manufacturer, converter and supplier of self-adhesive tapes and adhesive products.

We specialize in a range of tapes for the applications within the EV battery. Our range of tapes are designed to provide a protection to the battery packs against the extreme variations in heat, fire, air and water.

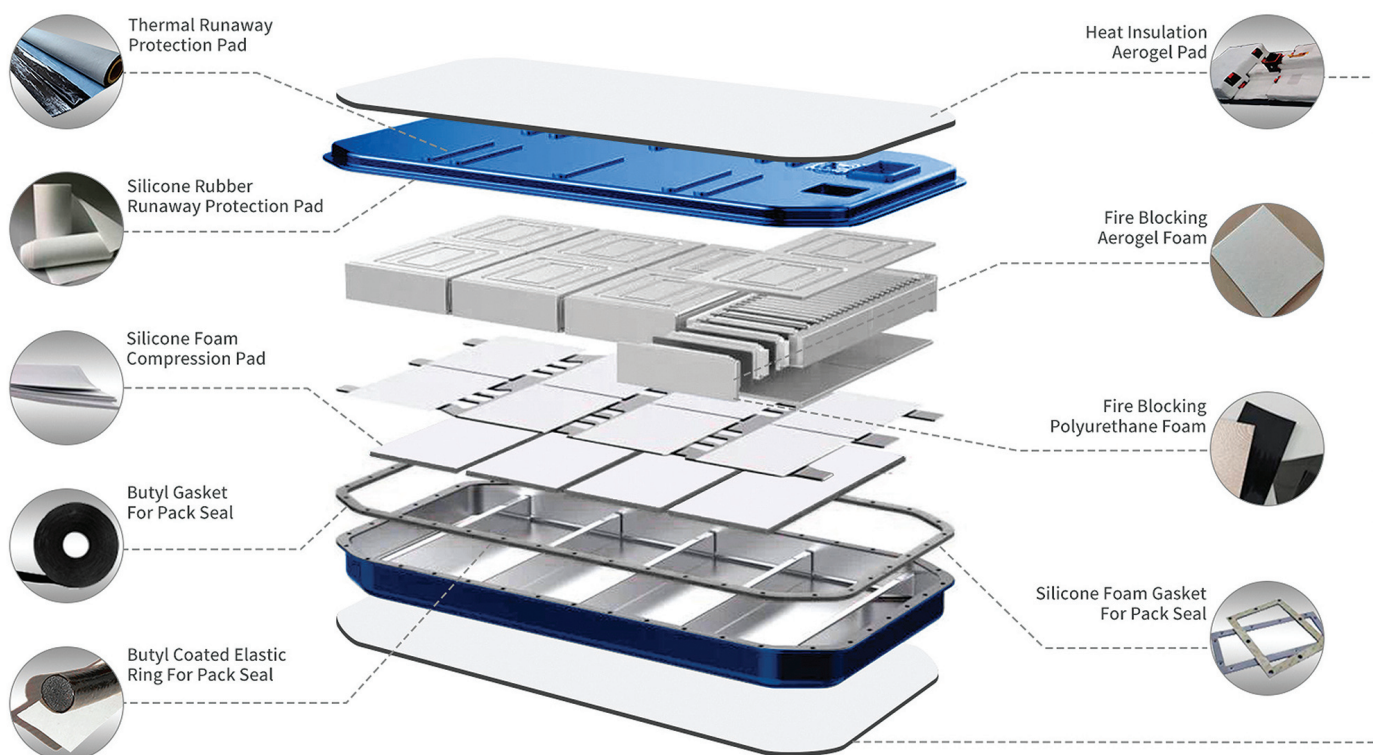

Main applications:

- Compressor Pads
- Thermal Runaway Protection Pads
- Pack Seals
- Thermal Interface Materials
- Fire Blocking Polyurethane Foam

Product range we offer:

- Silicone Foam
- Polyurethane Foam
- Aerogel Foam
- Butyl-coated PVC

Compressor Pads

Tape: Silicone Foam, Polyurethane Foam

Thermal Runaway Protection Pads

Tape: Silicone Foam, Polyurethane Foam

Pack Seals

Tape: Silicone Foam, Polyurethane Foam, Butyl-coated PVC

Thermal Interface Materials

Tape: Silicone Foam

Fire Blocking Polyurethane Foam

Tape: Silicone Foam

Our supply:

- + Our Tapes are tested and approved to UL94 V-O, ASTM D4986 and other ASTM specifications (for exact data please contact our Technical Sales Team).
- + As a converter, we can bespoke die-cut materials to specific shape and size to suit each application.
- + A vast range of thicknesses and density options available in each tape. Speak to our technical sales team regarding product specification.
